

As a recipient of Aleita Laird's services I highly recommend Aleita to be part of your team.

Aleita is a person who goes beyond the expected! During a crisis in my own life at which time it was most difficult to make decisions she was very patient and explained matters several times so that I could comprehend and make informed decisions.

Being faced with an overload of paper work, which this crisis involved, Aleita took it upon herself to make sure it was all completed in a timely manner. This was neither part of her Job description nor that of her Assistant.

I believe your Caregivers will benefit with her caring ways!
